Projects and collective works

Public Policies Alumni of Paris 1 Panthéon Sorbonne University

- *Co-founder of the Public Policy Master's Alumni Network at Paris 1 Panthéon-Sorbonne, which has built a dynamic community through dedicated communication channels (website, social media) and training initiatives to support students and promote research. Today, the network serves as a key gateway for graduates' first career opportunities.*

GovReg Pedia

- *With the support of the Governance and Regulation Chair, I co-developed GovReg Pedia, an online encyclopedia on governance and regulation. It covers topics from foundational economic concepts to sector-specific issues (digital, energy, transport, healthcare), offering accessible yet rigorous content for researchers, policymakers, and students.*

Digital Regulation database

- *Development of a global database on data protection regulation, covering 40 countries from 2013 to 2024. It offers a comparative and quantitative tool to analyze data governance models worldwide, detailing rights, enforcement mechanisms, sanctions, and regulatory powers.*

Young Researchers Network in Textile Industry

- *Dans As part of the Responsible Textile Industry Chair at Mines Paris – PSL, a comprehensive database of PhD candidates working on fashion and materials was built. Drawing on theses.fr, it compiles all doctoral projects since 2023 to foster connections among labs and researchers. A textual analysis of abstracts identifies key themes and maps the transdisciplinary scope of this emerging field.*

Seminars and conferences organizations

- *Organisation Organization of four research seminars on the textile industry and two annual conferences at Mines Paris – PSL, bringing together researchers, industry professionals,*

designers, and policymakers. Responsibilities included program development, communication strategy, and full event coordination to foster dialogue across academic and professional spheres.

Languages and skills

Skills : R, Stata, LaTeX, Pack Office, Photoshop, Illustrator, InDesign, Wordpress, Strapi
Languages : French (native), English (fluent)
